EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis Deljudice on March 30, 2006.

The application has been amended as follows:

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 7-9, drawn to a manufacturing method for a frame body.

Group II, claim(s) 6, drawn to a frame body.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claims 1 and 6 lack unity because claim 6 is drawn to the product generated by the process of claim 1.

4. During a telephone conversation with Louis Deljudice on March 30, 2006 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-5 and 7-9. Claim 6 is withdrawn from further consideration by

the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention, and being that claims 1-5 and 7-9 drawn to the elected group are in condition for allowance **claim 6 has been cancelled** by the applicant without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Claim 5 has been amended as follows:

Claim 5 (currently amended): A manufacturing method for a frame body according to claim 1, further comprising [[wherein]] forming the height of the ring-shaped member in the axial direction at a height that is equivalent to a plurality of the frame bodies when forming the ring-shaped member,

cutting the rectangular member at a height equivalent to the one frame body after forming the rectangular member using this ring-shaped member, and die forging these frame bodies separately.

7. The following is an examiner's statement of reasons for allowance:

8. The prior art teaches making rectangular frames from annular rings by ring rolling a metal to form a ring-shaped member. This step is followed by either deforming the ring in radial directions to achieve a finished part, or placing the ring in a mold and die forging the ring into a rectangular frame in a finished form.

The prior art does not teach forming the ring in radial directions and subsequently die forging the part. The examiner finds no motivation to combine these steps since the prior art teachings of the individual steps result in a finished product and nowhere does the prior art teach that these products should be subjected to further processing by die forging or deforming respectively. This teaching in combination with the limitations as claimed is therefore allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher M. Koehler whose telephone number is (571) 272-3560. The examiner can normally be reached on Mon.-Fri. 7:30A-4:00P.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, George Nguyen can be reached on (571) 272-4491. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
